

ECSO FLAGSHIP EVENTS

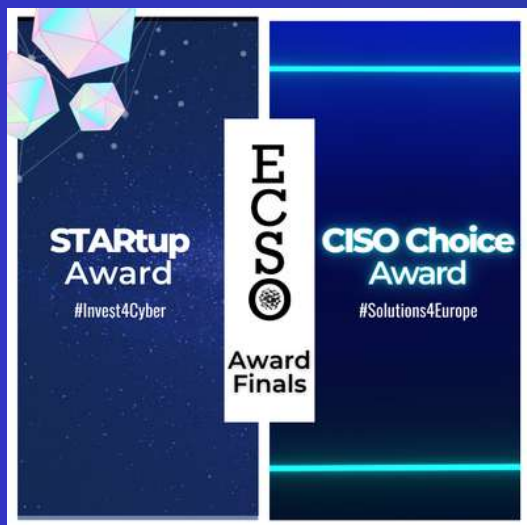

ECISO's Cyber Investor Days connect European cybersecurity start-ups and SMEs with investors through a gamified event, where selected companies pitch their innovations, and a jury then chooses the top two based on their potential. The event aims to drive collaboration and funding by providing pitch sessions, expert-led discussions, and networking opportunities that connect innovators with key stakeholders.

ECISO's Cyber Solution Days bring together cybersecurity providers, end-users, and integrators through a competitive event, where companies pitch their solutions to a jury that selects the top two. The event drives collaboration and business growth by offering targeted pitch sessions, expert-led discussions, and networking opportunities to connect supply and demand in the European cybersecurity market.

The **ECISO Award Finals** mark the culmination of all Matchmaking Events held across Europe. This event aims to recognise Europe's most promising cybersecurity start-up and solution through the [STARTup Award](#) and [CISO Choice Award](#).

ECSO FLAGSHIP EVENTS

The **European Networking Night: Invest4Cyber**, held annually in Berlin, is a key event that connects investors with cybersecurity VC funds to address the investment gap and support innovation in Europe. The evening provides a relaxed setting for the investment community to discuss and shape future investments in the growing sector.

The **ECISO Days** is an exclusive event designed to bring together **ECISO Members**, cybersecurity experts, innovators, and decision-makers from across Europe. It encourages collaboration, knowledge-sharing, and networking to strengthen Europe's cybersecurity ecosystem and drive innovation. Through dynamic sessions and discussions, the ECISO Days provides a platform for shaping the future of cybersecurity in Europe.

ECISO Annual CISO Meetup gathers 200+ CISOs from across Europe to promote collaboration and enhance Europe's cybersecurity posture. More than just a one-time gathering, this event builds a lasting network of CISOs, enabling them to continue collaborating and voicing their needs to key stakeholders in the European cybersecurity ecosystem.
