Travel instructions

ECSO's Award Finals 2025

EUROPEAN CYBER SECURITY ORGANISATION

📍 Arriving in The Hague

It is possible to reach **The Hague** from a wide selection of airports, such as:

- **Amsterdam Schiphol Airport (AMS), Netherlands**
- **Rotterdam (RTM)**
- **Eindhoven (EIN)**
- **Brussels (BRU)**

All these airports are connected to The Hague by train, for more information please consult:

[netherlandsrails.com](https://www.netherlandsrails.com).

AGENDA

ECSO's Award Finals 2025

EUROPEAN CYBER SECURITY ORGANISATION

Travel instructions

Den Haag Centraal → Campus The Hague Security Delta (HSD)

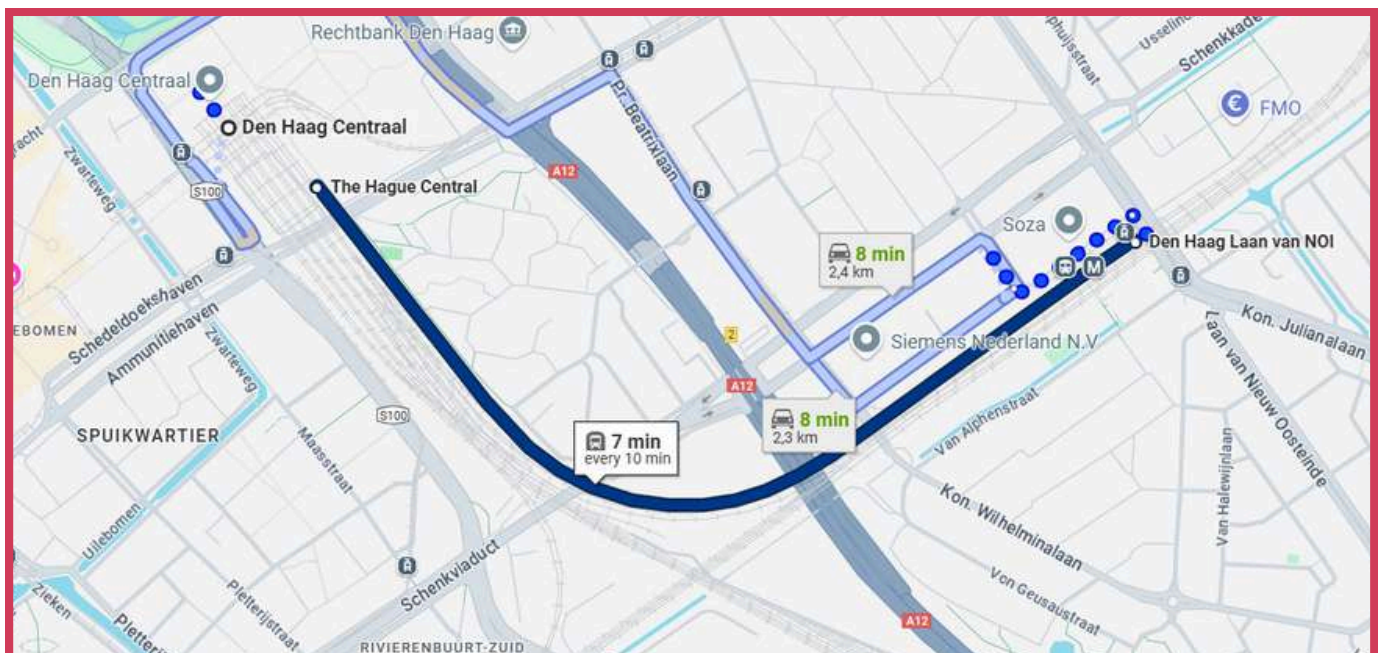

Campus The Hague Security Delta (HSD): [Wilhelmina van Pruisenweg 104, 2595 AN Den Haag, Netherlands](#)

PUBLIC TRANSPORTATION:

- From **Den Haag Centraal**, take **Tram 2/3/4** and **stop** at “**Den Haag Laan van NOI**”. Then **walk 3 minutes. (total 11 minutes)**
- From **Den Haag Centraal**, take **Metro E (Slinge)** and **stop** at “**Den Haag Laan van NOI**”. Then **walk 5 minutes. (total 7 minutes)**
- **Bus 45/46**: Take **Bus 45 (Leiden Leidschendam)** and **stop** at “**Den Haag, Haagse Poort**”. Then **walk 6 minutes. (total 12 minutes)**

TAXI:

You can find taxis at the designated taxi stand. Follow signs. **Approx. 12€ / Approx. 9-10 min.**

AGENDA

ECSO's Award Finals 2025

EUROPEAN CYBER SECURITY ORGANISATION

Travel instructions

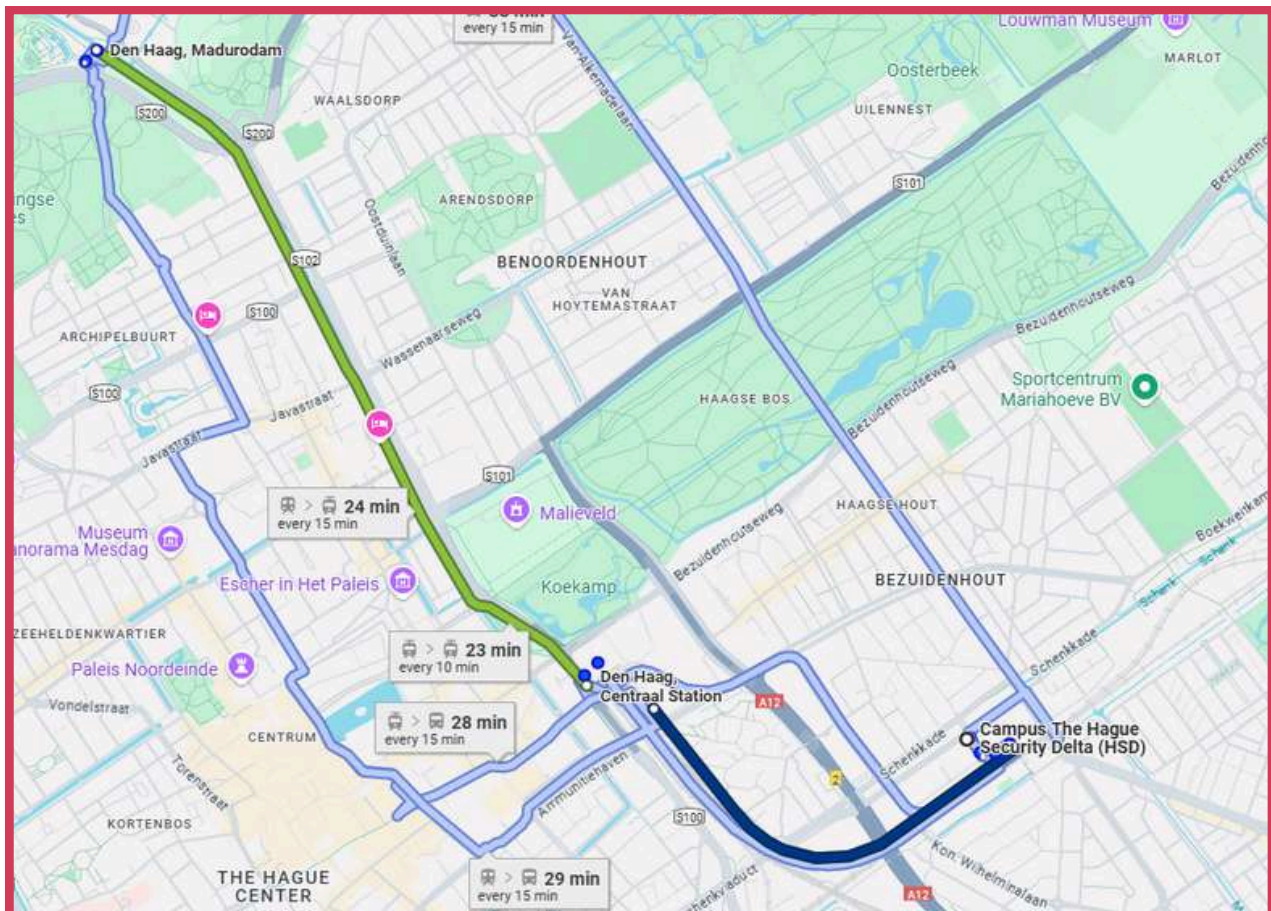

Campus The Hague Security Delta (HSD) → Madurodam

Madurodam: [George Maduroplein 1, 2584 RZ Den Haag, Netherlands](#)

IMPORTANT: There will be a bus to transport everyone from the venue (HSD) to the evening location (Madurodam) and back.

PUBLIC TRANSPORTATION:

- From Campus The Hague Security Delta (HSD) **walk 3 minutes** and **go to metro E Den Haag Centraal** from the stop “Den Haag Laan van NOI”.
- **Stop at the “The Hague Central”** and **walk 1 minute**.
- **Take tram 9 Scheveningen Noord** from the stop “Den Haag, Centraal Station”.
- **Stop at “Den Haag, Madurodam”** and **walk about 1 minute** to the final destination. **(total 22 minutes)**

AGENDA

Finalists of the ECSSO STARtup Award

We are delighted to present our **2025 finalists**,
Europe's **best** cybersecurity start-ups!

Attic Security

BreezyAI

CYBALGORIS

VirtualMetric

Xiphera Ltd.

AGENDA

ECSSO's Award Finals 2025

EUROPEAN CYBER SECURITY ORGANISATION

Finalists of the ECSSO STARTup Award

Learn more about the contestants:

Attic Security:

SMBs remain highly vulnerable to cyberattacks because their cybersecurity is poorly operated. ATTIC was created by experts with diverse experience and capabilities to challenge this status quo. ATTIC is the toolkit through which we act as the cybersecurity operator for huge amounts of businesses, interacting in simple language and with actionable advice. ATTIC Security's platform integrates with cloud services like Microsoft 365, continuously assessing them for vulnerabilities and suspicious activity. Upon detection of an anomaly, ATTIC provides actionable advice through our mobile app. With one click, customers can approve a fix, allowing ATTIC to automatically implement the change.

Visit the website here: <https://atticsecurity.com>

BreezyAI:

BreezyAI automates data security for collaboration SaaS and cloud tools, preventing leaks and ensuring compliance. With a zero-trust approach, BreezyAI discovers and classifies your data, providing real-time visibility into where it is, who has access, and how it's being used. It doesn't just identify risks—it takes proactive actions to stop incidents before they happen. BreezyAI empowers companies to innovate confidently while reducing security teams' investigation time and manual efforts.

AGENDA

ECISO's Award Finals 2025

EUROPEAN CYBER SECURITY ORGANISATION

Finalists of the ECISO STARTup Award

Learn more about the contestants:

CYBALGORIS:

CYBALGORIS is a company building innovative software solutions. It revolutionises application security with CYBERNOE®, the first Secure by Design Assistant. Their mission is to embed security into every layer of software development, technical and organizational, empowering developers and DevOps teams to integrate robust cybersecurity from the outset. Designed for efficiency and affordability, it ensures compliance and data protection without disrupting workflows. CYBALGORIS champions a proactive approach to cybersecurity, offering a cost-effective solution for developers and organizations committed to building secure products.

Visit the website here: <https://cybalgoris.com/>

VirtualMetric:

VirtualMetric is a leading provider of advanced telemetry pipeline solutions, enabling organizations to optimize data flow and gain actionable insights. Our flagship product, DataStream, simplifies the collection, processing, and routing of telemetry data, empowering businesses to enhance IT operations and maximize the value of their SIEM platforms like Microsoft Sentinel. By delivering scalable, high-performance solutions, VirtualMetric helps enterprises improve operational efficiency, strengthen security, and make data-driven decisions with confidence.

Finalists of the ECISO STARTup Award

Learn more about the contestants:

Xiphera Ltd.:

Xiphera designs and implements hardware-based security using proven cryptographic algorithms. Their strong cryptographic expertise and extensive experience in digital system design enable us to help our customers to protect their most valuable assets. They offer secure and highly optimised cryptographic Intellectual Property (IP) cores, designed directly for Field Programmable Gate Arrays (FPGAs) and Application Specific Integrated Circuits (ASICs) without software components. The broad, fully in-house designed, and up-to date portfolio, including implementations of Post-Quantum Cryptography, enables cost effective development projects with fast time-to-market – providing peace of mind in a dangerous world.

AGENDA

ECSSO's Award Finals 2025

EUROPEAN CYBER SECURITY ORGANISATION

Finalists of the ECSSO CISO Choice Award

Among the finalists are the following companies equipped with Europe's **top** cybersecurity solutions!

The logo for CalQRisk, featuring the word "Cal" in red, a stylized red and white circular icon, and "Risk" in black.

CalQRisk

The logo for CyberDesk, featuring a yellow and blue circular icon, the word "CyberDesk" in yellow, and "Identity Centric Data Security" in smaller text below.

CyberDesk

The logo for GuardedBox, featuring a purple icon of a box with a lock and the word "GUARDED BOX" in purple.

GuardedBox

The logo for Labyrinth, featuring a green and black icon of a maze and the word "LABYRINTH" in green.

Labyrinth

The logo for Secdojo, featuring a green and black icon of a dojo and the word "SECDOJO" in green.

Secdojo

The logo for Snowpack, featuring the word "snowpack" in a dark blue, lowercase font.

Snowpack

AGENDA

ECSO's Award Finals 2025

EUROPEAN CYBER SECURITY ORGANISATION

Finalists of the ECSO CISO Choice Award

Learn more about the contestants:

CalQRisk:

CalQRisk provides an integrated risk management platform designed to help organisations streamline their governance, risk, and compliance (GRC) processes. By combining intuitive software with expert knowledge, CalQRisk enables businesses to identify, assess, and manage risks effectively, ensuring compliance with regulatory requirements. Trusted by organisations across diverse industries, the platform offers tailored tools and real-time reporting to enhance decision-making and operational resilience. With CalQRisk, users can simplify complex risk management tasks, reduce vulnerabilities, and maintain a proactive approach to organisational governance

Visit the website here: <https://www.calqrisk.com/>

CyberDesk:

Today, more than 95% of data access rights are not used. To reduce this attack surface, CyberDesk helps to adaptively control who can take what actions on what data. Covering both your human and non-human identities, our dynamic access control engine helps to visualize, control, and automate entitlements, where existing solutions are blind. Leading international organizations choose CyberDesk to prepare their hybrid, multi-cloud environments for the AI age and mitigate their liability risks from regulations such as DORA and NIS2.

Visit the website here: <https://www.cyberdesk.app/>

AGENDA

ECISO's Award Finals 2025

EUROPEAN CYBER SECURITY ORGANISATION

Finalists of the ECISO CISO Choice Award

Learn more about the contestants:

GuardedBox:

GuardedBox is an advanced technological solution engineered to secure and protect all forms of information exchange, leveraging state-of-the-art cryptographic mechanisms — both modern and post-quantum (PQC) — to ensure maximum data security. Certified by CCN-CERT in Spain, GuardedBox provides organizations with a robust defense against data breaches caused by human error or cyberattacks, helping them avoid significant financial and reputational losses. Built to meet the highest cybersecurity standards, GuardedBox safeguards and controls businesses' sensitive information, while ensuring compliance with regulations such as NIS2 and GDPR, keeping data secure and guaranteeing resilience in an increasingly complex digital landscape.

Visit the website here: <https://guardedbox.es/>

Labyrinth:

Labyrinth, founded in 2019, revolutionizes network monitoring and threat detection through its innovative deception-based approach. The Labyrinth Deception Platform creates convincing decoys across corporate networks, enabling early intrusion detection and providing high-fidelity threat intelligence. This strategy significantly reduces false positives and dwell time, empowering SOCs and IT teams with efficient, proactive cybersecurity. Headquartered in Zabrze, Poland, Labyrinth serves global clients and actively seeks potential customers needing advanced threat detection for their security operations. The company also partners with service providers looking to enhance their portfolio with cutting-edge deception technology, creating more innovative and competitive cybersecurity offerings in the market.

AGENDA

ECSSO's Award Finals 2025

EUROPEAN CYBER SECURITY ORGANISATION

Finalists of the ECSSO CISO Choice Award

Learn more about the contestants:

Secdojo:

Secdojo is a cybersecurity training and skills development platform that introduces a human-centered approach to cyber resilience, leveraging advanced threat simulation technology to replicate realistic attack scenarios.

The solution offers:

- Upskilling and Reskilling Pathways for IT and security teams.
- Competency Validation Frameworks aligned with leading international cybersecurity standards.

Secdojo's platform uniquely combines data sovereignty and high scalability, enabling the dynamic deployment of dedicated training environments capable of supporting millions of concurrent users. It also integrates a marketplace of commercial security solutions, allowing organizations to design tailored simulations that address their specific challenges.

Visit the website here: <https://sec-dojo.com/en>

Snowpack:

If hackers can't see you, they can't hack you. This is the foundational idea behind Snowpack's VIPN technology. Virtual & Invisible Private Network (VIPN) enables any organization to cloak all their sensitive digital assets exposed on Internet. With VIPN, organizations can make invisible their users, servers, services and data invisible to even the most elaborate hackers (i.e. nation states). Because VIPN has no trusted third party, only authorized users can see and access sensitive assets: even Snowpack can't see them. Snowpack is a +15 people 2021 CEA spin-off that received in 2024 the 2 most prestigious French cyber innovation awards.

AGENDA

ECSO's Award Finals 2025

EUROPEAN CYBER SECURITY ORGANISATION

About the Organisers

ECSO

The European Cyber Security Organisation (ECSO) is a non-profit, membership-based organisation dedicated to strengthening Europe's cybersecurity resilience and strategic autonomy. Established in 2016 as the European Commission's contractual partner for the Public-Private Partnership in Cybersecurity (2016–2020), ECSO fostered collaboration between public and private actors to drive innovative and trustworthy European solutions. Today, ECSO builds on this success, uniting a diverse, cross-sectoral membership of over 340 stakeholders—including businesses of all sizes, research centres, and public administrations—to develop cybersecurity communities and strengthen Europe's cybersecurity ecosystem.

WOMEN 4CYBER

EUROPEAN CYBER SECURITY ORGANISATION

The Women4Cyber Foundation is a non-profit organisation founded in 2019 aimed at promoting, encouraging, and supporting the participation of women in the field of cybersecurity. Its mission is to develop and grow a cybersecurity community through networking, awareness, education, and training. To do that, the Foundation along with its 31 National Chapters works to help raise the voices of women through social media campaigns, events, and targeted activities focused on enhancing the participation of women in cyber education and jobs (through mentorship, role modeling, training programmes, internships, and job fairs).

EUROPEAN CYBER SECURITY ORGANISATION

ABOUT THE ORGANISERS

Accenture is a global professional services company with leading capabilities in digital, cloud and security. Combining unmatched experience and specialized skills across more than 40 industries, they offer Strategy and Consulting, Interactive, Technology and Operations services — all powered by the world's largest network of Advanced Technology and Intelligent Operations centers. Their 799,000 people deliver on the promise of technology and human ingenuity every day, serving clients in more than 120 countries. Accenture embraces the power of change to create value and shared success for our clients, people, shareholders, partners and communities.

InnovationQuarter is the regional economic development agency for the Zuid-Holland province in the Netherlands. They are advocating economic growth and innovation by advancing sectors such as digital technology and cybersecurity in this region, renowned for its dense industrial and technological landscape. They achieve this in collaboration with our partners by supporting a dynamic ecosystem of startups, established companies — both local and international businesses — eager to prosper in our region. InnovationQuarter assists these companies in bringing their business ideas to the market and further supporting them through a mix of funding, deep sectoral knowledge, a robust network and active involvement.

AGENDA

ECSSO's Award Finals 2025

EUROPEAN CYBER SECURITY ORGANISATION

ABOUT THE ORGANISERS

KPN Ventures is the venture capital arm of KPN, The Netherlands' leading telecoms company. We aim to build value-creating partnerships with innovative technology companies, accelerating innovation and growth by providing access to capital, infrastructure and industry expertise, our professional network and most importantly the access to KPN's customer base. Initial investments typically range from €1M to €5M for minority stakes in Series A, B and C rounds, building long-term partnerships, ultimately aiming for external exits, not acquisitions. Relevant segments include Telecom and adjacent sectors such as Cybersecurity, IoT, Cloud Communications, Digital Identity, Cloud, B2B SaaS, AI, and more.

Security Delta (HSD) is the Dutch security cluster. Over 300 companies, governmental organisations and knowledge institutions have been working together since 2013 to make a difference in securing our digitising society. They share their knowledge and collaborate on innovative security solutions, which can be scaled within The Netherlands and internationally. HSD '**thinks, dares and acts**'. By providing access to knowledge, innovation, market, finance, and talent, HSD takes care of the preconditions for a successful security cluster. They do this with the common goal of strengthening the Dutch economy, increasing employment rates and making The Netherlands more secure.

AGENDA

ECSSO's Award Finals 2025

EUROPEAN CYBER SECURITY ORGANISATION

ABOUT THE ORGANISERS

Den Haag

The Hague is renowned as the international city of peace and justice and has also built up a strong reputation in the field of cybersecurity. After all, peace, justice and security go hand in hand. For more than a decade, The Hague has been committed to combating the cyber threats of today and tomorrow by focusing on knowledge sharing, innovation and cooperation. The city has built a unique ecosystem that brings together knowledge and innovation in the field of cybersecurity. Private, public and knowledge organisations work together every day to protect the digital world. Typical investments typically range from €1M to €5M for minority stakes in Series A, B and C rounds, building long-term partnerships, ultimately aiming for external exits, not acquisitions. Relevant segments include Telecom and adjacent sectors such as Cybersecurity, IoT, Cloud Communications, Digital Identity, Cloud, B2B SaaS, AI, and more.

TIN CAPITAL

TIN CAPITAL was founded in 1998, and is one of Europe's leading cybersecurity investors, backing tomorrow's cybersecurity leaders to become global stars in their category. In Q4 2023, they launched the European Cyber Tech Fund V, investing in best-in-class cybersecurity companies at the A/B round stage. Their portfolio – including companies such as Eye Security, BreachLock and EGERIE – reflects their deep market expertise and commitment to building a cyber-resilient Europe. Supported by a strong network of angel investors, family offices, corporates, and government bodies, TIN Capital provides not just capital, but strategic partnerships to help cybersecurity innovators scale globally.
